PRESIDENT'S MESSAGE

This is the time of year when I welcome the late afternoon light from the days growing longer and the spectacular cloudy sunsets! AND the beaches are not so crowded for enjoying a sunset.

For this newsletter's message, I'd like to share with you an online resource which might be a place for you to spend some time reminiscing or to find something from the past. The UC San Diego Library has digitized Bear Facts (Oceanids newsletter) from 1962-2007, and "Thirty Years of Oceanids: A History from 1952 to 1982" by Betty Shor.

The Bear Facts Collection is part of the Library Digital Collections (<https://library.ucsd.edu/dc/>). You might find this an interesting place to find your past at the university. I've just done a little searching on my name and my husband's and found a few memories.

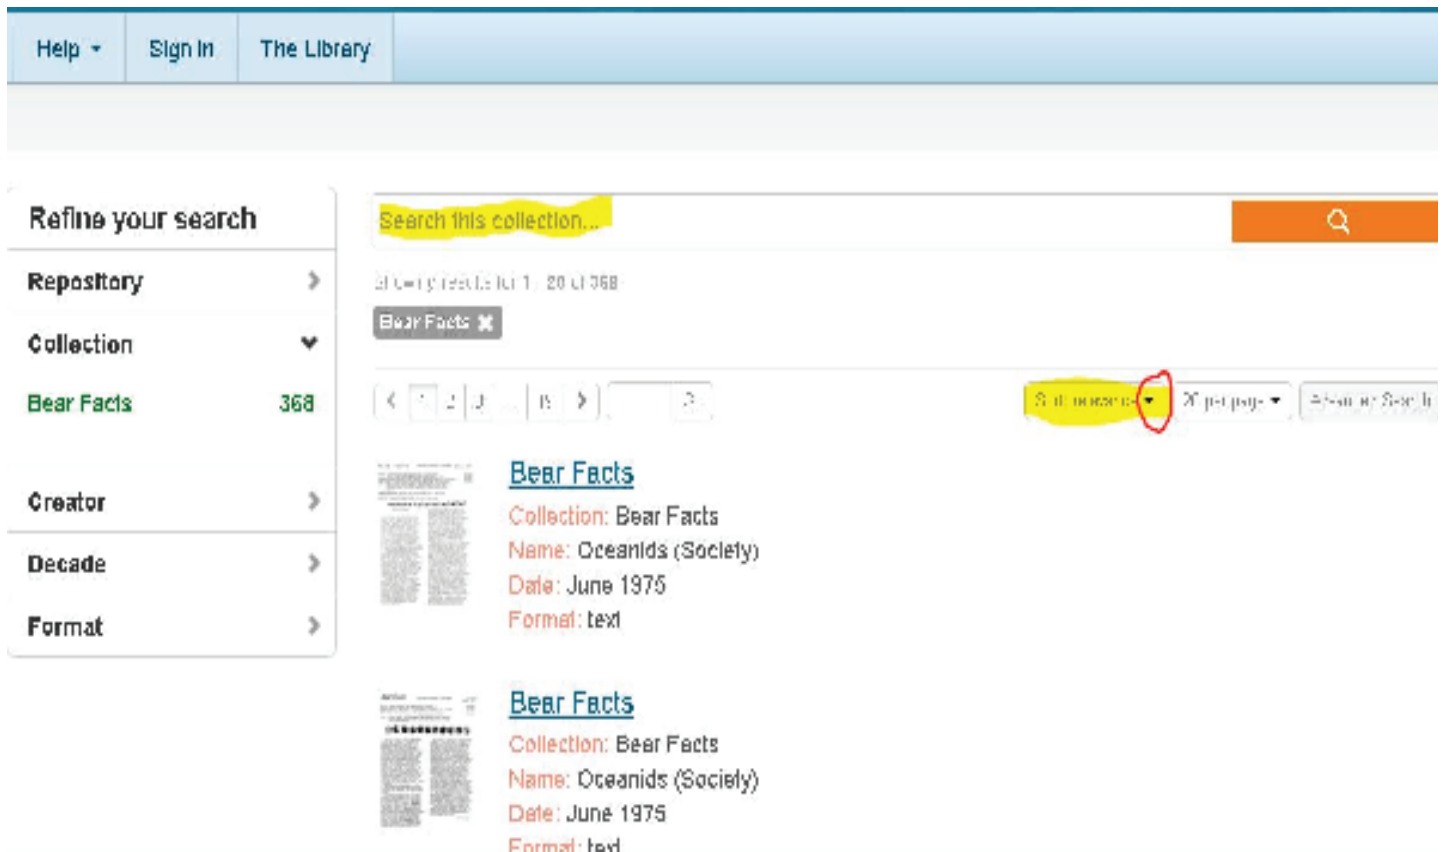

The web address for the Bear Facts Collection is: <https://library.ucsd.edu/dc/collection/bb6520395d>
On the right under the Bear Facts logo, click "View Collection Items." This will take you to this web-page:

There is a search box (highlighted) and a sort box (highlighted). To sort in chronological order, click the down arrow (red circle), and then in the drop box, click "date created ^" (up arrow) for oldest to newest. The down arrow is reverse for newest to oldest. Please email me with any questions at kspaar@ucsd.edu.

Now on to the newsletter ... and please go out and enjoy a sunset at the beach!

Kim Signoret-Paar

The screenshot shows the UC San Diego Library Digital Collections search results page. At the top, there is a navigation bar with "Help", "Sign In", and "The Library" links. Below this is a search bar with the text "Search this collection..." and a magnifying glass icon. To the left of the search bar is a "Refine your search" sidebar with categories: Repository, Collection (set to Bear Facts with 368 items), Creator, Decade, and Format. Below the search bar, there are search results for "Bear Facts". The first result is titled "Bear Facts" and includes the following details: Collection: Bear Facts, Name: Oceanids (Society), Date: June 1975, and Format: text. A second, identical result is shown below it. A red circle highlights a dropdown menu in the search results area, which is currently set to "Sort by: relevance".

JUST ONE OF THE THINGS OCEANIDS DOES FOR THE UNIVERSITY COMMUNITY

Dear

On behalf of Oceanids and the University of California, San Diego, I am pleased to notify you that you have been selected as a recipient of the Frieda Daum Urey (.....) Fellowship for the 2017- 18 academic year. This \$3,000.00 fellowship is given to an individual who has had a significant hiatus in her/his studies and subsequently enrolls in graduate or professional studies on the General Campus or the Scripps Institute of Oceanography and for whom the award of the fellowship will make a critical difference in the ability to attend or to continue at UCSD. Your academic performance and the recommendation received from your department indicate you will be a worthy recipient of this award. The Fellowship will be issued as a stipend in 10 monthly payments beginning October 1, 2017, and may be used for educational or living expenses. I am confident Oceanids will be pleased with your selection and that you will represent the University well as a Urey (.....) Fellow.

cc: Graduate Coordinator Oceanids
Graduate Division

Sincerely,
Kit Pogliano Dean of the Graduate Division

TWO GRATEFUL RECIPIENTS

I am grateful to have been selected as a recipient of the Frieda Daum Urey Endowed Fellowship, and would like to know if there's anyone else I can thank.

The recognition given to individuals who have taken a good deal of time between their undergraduate and graduate careers, is greatly appreciated. It is validating to be recognized for having taken this path.

With my fullest sincerity, I thank you again.
Kindly,

Jessica

Jessica A. Frelund

Dear All,

I am very happy to hear about this award which will make a significant contribution next year to my efforts towards the completion of my dissertation. I would like to thank the Oceanids and the Graduate Division and also want to assure them that I am going to do my best to proudly represent our University as a Urey Academic Fellow.

Best regards,

OCEANIDS' INTEREST GROUPS

Interest Groups are the backbone of our Oceanids organization. They are here to meet the many varied needs of UCSD families, especially those new to the UCSD campus and the community. If you don't find an activity you would like to participate in, please contact Interest Group Coordinator *Judy Vacquier* (858) 361-0418 or *juvacq@sbcglobal.net*. If five or more Oceanids wish to start a new group, please let her know so we can inform other members. All we ask is that your members be Oceanids. If you are not yet a member of Oceanids, please consider joining us by contacting Mary Cutchin, 858-459-8074, *marycutchin@yahoo.com* or by submitting the application form in this issue.

Since the newsletter is posted on the Oceanids website we will, for security reasons, not publish addresses (with occasional exceptions). Please call the contact for the necessary information.

Samuel L. Popkin, Ph.D.

Professor Emeritus of Political Science / Recall Professor

“The Republican Crackup and the Future of Presidential Politics”

The Republican party controls the White House, Senate, and House of Representatives but has been able to fulfill only one of the party’s longstanding promises to their voters. This lecture will explain how changes in campaign finance have weakened the ability of the political parties to manage intra-party conflicts. These conflicts made possible the election of President Donald Trump, whose policies have further divided the party. Ample time will be provided to answer questions.

Mark G. Hanna, Ph.D.

Associate Professor of History

“TBA”

His work focuses on piracy, smuggling, and other illicit activities in early America and the British Empire. He is the founding Associate Director of the new Institute of Arts & Humanities, the Honorary Curator of the Hill Collection of Pacific Voyages in UC San Diego’s Special Collections Library, and the Robert and Laura Kyle Endowed Chair of Maritime History at the San Diego Maritime Museum.

His first book, *Pirate Nests and the Rise of the British Empire, 1570-1740* (UNC Press, 2015), analyzes the rise and subsequent fall of international piracy from the perspective of colonial hinterlands. The book explores the overt of sea marauders in maritime communities from the inception of England’s in the 1570s to its administrative consolidation by the 1740s. Although traditionally depicted as swash-buckling adventurers on the high seas, pirates played a crucial role on land. Far from a hindrance to trade, their enterprises contributed to commercial development and to the economic infrastructure of port towns.

Thank You Oceanids !!!!!

For your Continuing Contributions to the University of California San Diego, students and campus life. 2017 was another excellent year for Oceanids financial support of both undergraduate and graduate students at UC San Diego. Thanks to many generous gifts, we have a long list. Oceanids gave four Fellowships to graduate students: two funded by Oceanids' Frieda Daum Urey Academic Fund, one fellowship funded by Oceanids' Frieda Daum Urey Endowed Fund, and one funded by Oceanids Bertha Lebus Fellowship Fund. Oceanids also uses donations to our General Projects Fund to support the wonderful work of the UC San Diego Student-Run Free Clinic, the Annual UC San Diego PhD Career Conference, the Annual STEM Career Symposium run by the UC San Diego Postdoctoral Association, and also a Triton 5K Scholarship. In addition, Oceanids awards Undergraduate Service Awards to each of the six colleges, given annually to a student who is nominated by their Dean. We also seek funding for Oceanids Emergency Fund for International Students, utilized by the Dean of the International Center to assist students with unexpected financial hardships. Oceanids continuing support of these projects has touched the lives of many UC San Diego scholars.

Spring, Tacos and Ellen Browning Scripps

Join your fellow Oceanids at the Spring Oceanids luncheon Thursday, **May 24**, 2018, at the Mission Beach Women's Club for Mexican cuisine. We will have an authentic taco cart, homemade tortillas and salsas. Our speaker, Dr. Molly McClain, Professor of History at University of San Diego, Co-editor of The Journal of San Diego History and author of "Ellen Browning Scripps: New Money and American Philanthropy" has agreed to address us about the extraordinary and vital role Ellen Browning Scripps played in the history of women, California and the American West. The involvement of Ellen Browning Scripps with Scripps Institution of Oceanography is intimately involved with the association of Oceanids and the institution. But there's more! You will meet the Fellowship recipients of our scholarships who will highlight how the reception of our scholarships has affected their graduate research. Please plan to join us on Thursday, May 24.

Recovery of a species

SUCCESS WITH GRAY WHALES

by Mary Anne Pentis

The recovery of gray whales from near extinction in the 1930s is quite a success story. They were hunted to an estimated population of only 300 for their stores of blubber which was rendered into oil. After being placed on the Endangered Species List, the herd has grown steadily to about 24000 and their only real threat today is by insensitive and uninformed boaters who race out and harass them.

However the saga of the gray whales and their recovery is not over. The Mitsubishi Corporation, in partnership with the Mexican government, is proposing to build a salt works in San Ignacio Lagoon, Baja California, which some believe may put the herd in jeopardy. This is a significant calving and mating arena and noise, as well as activity, is of great concern. By March, the herd is ready to begin its return journey to their Arctic feeding grounds. Half of the females have given birth and their calves are now about two months old. The rest of the females are pregnant; they will give birth the following year when they return to the warm waters of the lagoons. Since the groups travelling north are more sporadic, they are harder to locate, and the whale-watching season tapers off.

MEXICO CITY , **March 3, 2000**— After a ferocious five-year battle that drew in environmentalists, a Nobel Prize winner and Hollywood stars, the Mexican government and Mitsubishi Corp. announced Thursday that they were canceling plans for a giant salt-works in Baja California Sur.

In a surprise announcement, President Ernesto Zedillo said the government had withdrawn its support from the venture because it would alter the stunning landscape of arid desert. The nearby seas offer the last pristine breeding refuge of gray whales that migrate annually between Mexico and Alaska.
