PRESIDENT'S MESSAGE

Hard to believe that 2018 is coming to an end! The next weeks will be filled with parties, celebrations, family gatherings, travel and hopefully a little time for reflection as to what we have accomplished this past year and what our goals are for the New Year.

At the Oceanids Annual Fall Brunch in October we were again wonderfully hosted at the Audrey Geisel University House by Thespine Kavoulakis, Oceanids Honorary Chair and Associate of the Chancellor. Thespine enjoys hosting us and we so very much appreciate this special time with her, enjoying the sun and ocean views!

At the brunch I talked briefly about the need to think about how we get to and from campus. The University of California has chosen the UC San Diego campus as one of the campuses that has room (land) to expand student enrollment. Now in the midst of this expansion, the use of large expanses of land for inexpensive parking lots is a fond memory. The UC San Diego Blue Line Trolley will be here in 2021 to provide an alternative way to get on and off campus. This fall the new Osler Parking Structure opened just off Gilman Drive next to the Skaggs School of Pharmacy and Pharmaceutical Sciences, providing 1,386 spaces to offset the 975 spaces lost from the closure of the surface parking lots between Muir and Marshall Colleges. These surface parking lots are being replaced by structures that when completed will also include an additional 1,200 underground parking spaces.

In the meantime during construction, a possible solution is to consider using Lyft or Uber to get to and from campus. Also, planning the timing of your visit to campus is helpful. A study was done from October 1-5, 2018, on the availability of parking. Here is a link to the study results: <https://transportation.ucsd.edu/parking/availability.html>

Most "A" spaces are full by 10 a.m. and most "V" spaces are full by 12 p.m. If you plan on arriving after that time, head directly to lots that say, "doesn't fill," on the study results at the link above.

As we wrap up the year and head into 2019, we will once again send you an annual report on the use of Oceanids Funds. Thank you very much for your continued giving to these funds. Please be on the lookout for this report and consider giving a year-end

gift.

Now on to the newsletter ... and my best wishes to all of you and your families for the holidays and the New Year!!

Kim Signoret-Paar

The November 3 Fall Brunch at the Chancellor's house, the "Audrey Geisel University House", was very much of a success. 102 Oceanids had signed up to enjoy a delicious breakfast with coffee and bottomless mimosas on the terrace with the terrific view of the Pacific! Then we went to thoughtfully set tables which were decorated beautifully. The platters with food were plentiful and the cuisine perfectly chosen to suit everyone.

Three of our scholarship recipients had joined us and spoke about their work and expressed much gratitude to Oceanids. All in all it was a lovely party.

Many thanks to Nellie High who did a great job organizing the event, although being rather new to Oceanids. But most of all thanks to Thespine for her generosity and attention.

Valet Parking; no less !!!

YES, PLEASE !!!

New interest group for photography enthusiasts

As a personal interest and one that may be of interest to a number of you, I would like to start a new group: Cellphone Photography.

I propose that we meet once a month at a member's home. In the beginning I will host the group in my home.

Please email me if you are interested and we set the first date for the fall – kspaar@ucsd.edu

John E. Schwartz, Ph.D.

Professor Emeritus in the Department of Political Science,
College of Social and Behavioral Science, University of Arizona

“Reclaiming Our Freedom”

“Most of us believe that our notion of freedom is pretty much the same as the Founders envisioned. We’re dead wrong, though, and that error lies behind the greatest domestic problems our nation is experiencing today. Discovering what freedom actually meant to the Founders also reveals why today’s problems keep getting worse and how to solve them.”

John E. Schwarz is an American political scientist. He received his Ph.D. from Indiana University in 1967, and then went on to teach at the University of Minnesota from 1966-1970 and the University of Arizona from 1970-2004. He was Chair of the Faculty at the University of Arizona from 1995-1997 and is now a Professor Emeritus in the Department of Political Science in the College of Social and Behavioral Science. In 2006, he became a distinguished senior fellow at Demos, a public policy research organization in New York City.

Schwarz’s research and writing initially emphasized democratic politics. Later he assessed the actual results of public policies enacted by Congress, which culminated in a 1983 best-selling book, *America’s Hidden Success: A Reassessment of Twenty Years of Public Policy*. He later turned to evaluating the results of public policies enacted during the Reagan and other administrations, focusing on workers and the larger economy. Schwarz has published six books:

- ☐ The United States Congress in Comparative Perspective with L. Earl Shaw, 1975.
- ☐ America’s Hidden Success: A Reassessment of Twenty Years of Public Policy W. W. Norton & Company, 1983.
- ☐ The Forgotten Americans with Thomas J. Volgy. W. W. Norton & Company, 1992
- ☐ Illusions of Opportunity: The American Dream in Question. W. W. Norton & Company, 1997
- ☐ Freedom Reclaimed: Recovering the American Vision. Johns Hopkins University Press, 2005;
- ☐ Common Credo: The Path Back to American Success. Liveright Publishing Corporation, 2013

His articles have appeared in The New York Times, The Washington Post, ABC News, The Atlantic, and The New Republic.

PRAISES FOR THE KITCHEN EXCHANGE

Dear Judy (assistant at the kitchen exchange),

Thank you very much for your kind and efficient help with all the stuff and the nice exchanges around Niki de Saint Phalle, music and else. As you can see all rented items arrived safely on my bike at I-House.

Many thanks also to your colleagues from Oceanids. I have been to many places during my life including German Max Planck or French Pasteur Institute but nowhere the welcome was so empathetic and intelligent as at UCSD.

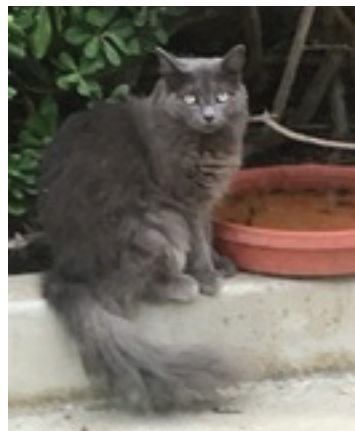

Georg Haase

Bringing Home----

All that stuff !!

Story of "my" Kitty

In the beginning of August I noticed a small skinny grey cat hanging out around my front door. She was skittish and thirsty, eagerly drinking from my birdbath and then disappearing again.

One day I shared my salmon dinner with her, and that clinched the deal. I bought cat food and little treats. We sat together on

the steps to my front door and I fed her treats one by one from my fingers. If I did not offer them fast enough, she stepped on my thigh and grabbed them by the mouth-full. In appreciation, she brought me a gift, a small rat which she had mercifully killed already. She was strictly an outdoor cat who liked to hunt in my large garden. I named her Fluffy.

After two months of her coming to my front door and welcoming me home when I drove into the garage, I felt she was "my cat and my responsibility". I took her to the vet for a check-up, deworming and the necessary immunizations. Later that day, the vet called me to report that the cat was chipped, the owner has a New York telephone number which they had called. The young woman who answered was delighted to hear that her cat was alive. She had disappeared a year ago from her parents' home in La Jolla and was presumed dead. The owner called me to thank me for taking care of her pet. Her parents picked her up at the vet's office.

I had gotten quite fond of Fluffy and I never got to see her again.
